

UPLOADING FILES USING SYNC.COM

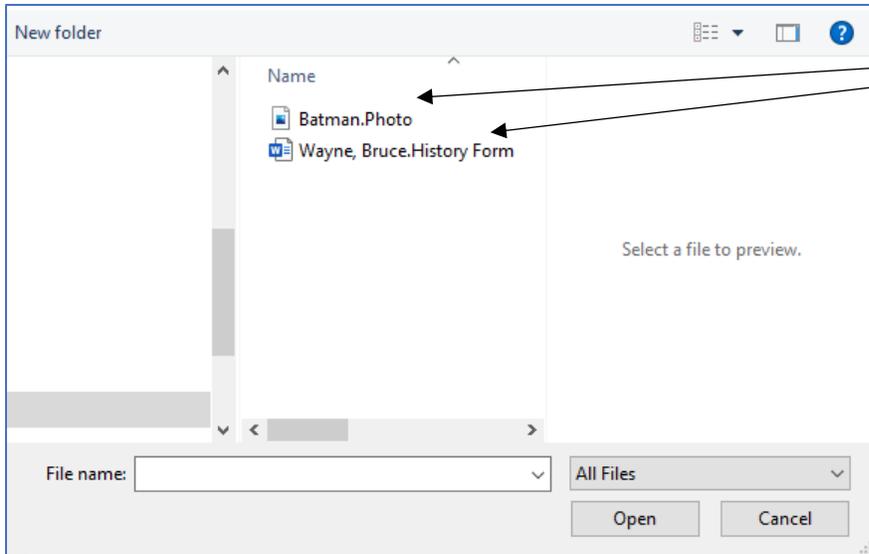

Files uploaded using Sync.com will be sent directly to our computer. If you are sending photos or documents that do not include your name, please rename your file with some identifying information or we will not know who it is from or which patient chart to put them in.

Click on the 'Upload files' link

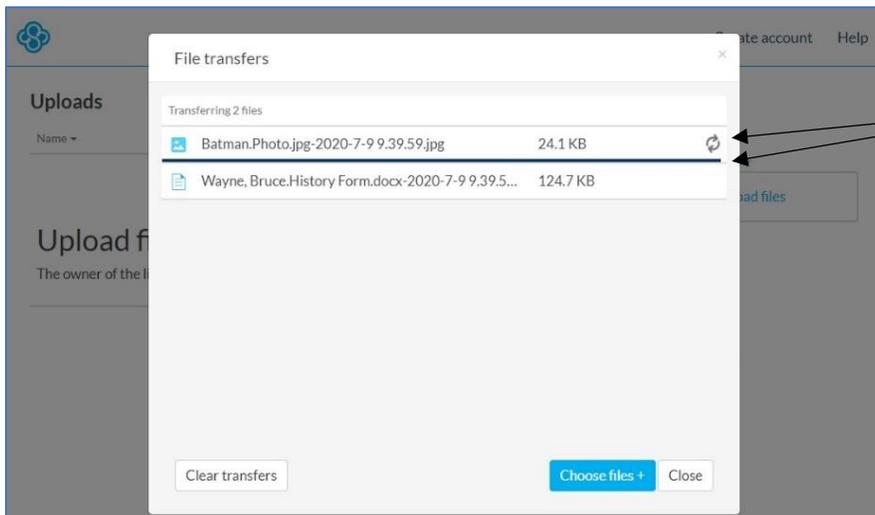

Click on 'Choose files'

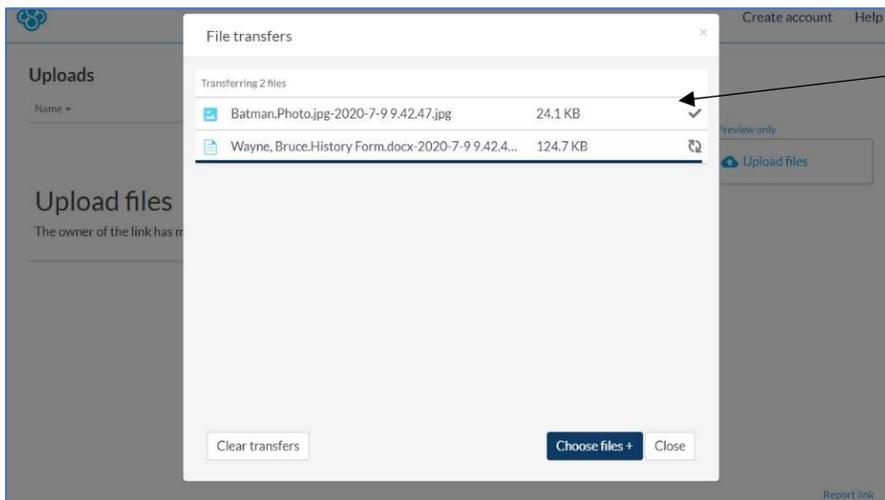

Select your file(s)

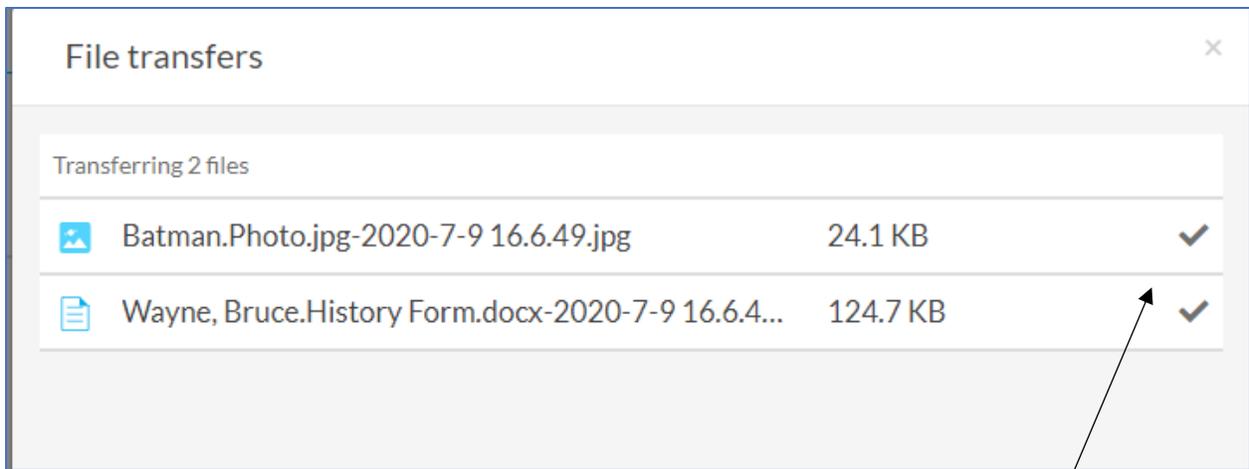

If you are sending photos, please rename the file with your name or other identifying information.

When you see the spinning arrows and the loading bar below the filename, your file is being uploaded.

When the spinning arrow turns into the check mark and the loading bar disappears, your file upload has been completed.

File upload complete and is instantaneously received in our office vial encrypted file transfer.
